YourTo work effectively towards these goals, SOAP is organized into seven committees which provide oversight of our Annual Meeting and Live Events planning, Intersociety activities, Research programs, Education efforts, Governance effectiveness, Member Value creation, and Finance sustainability. Each of these committees reports directly to the Board of Directors, allowing us to stay focused on our priorities. Key areas of focus for SOAP over the coming year will be maintaining the society's position of thoughtful leadership, reaching out to future members of the society, and growing the SOAP Endowment
